### **State Need Grant Update**

### **Executive Summary**

In 2002-03, the State Need Grant Program distributed \$104.5 million in grants to about 53,000 students. At the close of the fiscal year, the institutions reported an additional 6,000 enrolled students who were eligible for need grants but did not receive them due to a lack of funds.

For 2003-04, we estimate the program will expend \$114.2 million in grants to about 53,500 students. It is too early in the year to accurately predict the number of eligible enrolled students who will not be given a grant due to a lack of funds. However, the fall progress reports submitted to the Higher Education Coordinating Board by the institutions indicate that there will be unserved students again this year.

### **State Need Grant Update**

#### Overview

This is an update on the State Need Grant (SNG) program's expenditures and activity. Included is a summary of the 2002-03 year-end reconciled disbursements and a report on 2003-04 activity to date. Currently, 72 institutions participate in the SNG program.

#### **2002-03 Summary**

In 2002-03, the Board had a total of \$104.6 million available for awards to students from all sources, including federal matching funds. All but \$110,000 of the total available was delivered to students. The unexpended excess comes from an unanticipated \$236,000 supplemental allocation to the federal Special Leveraging Educational Assistance Partnership (SLEAP) program received after the close of the fiscal year. Attached is a school-by-school table detailing the numbers of students served and dollars disbursed (see Appendix A).

In 2002-03, nearly 100 percent of the appropriation was spent. With the exception of the 1999-2000 academic year, SNG expenditures have always been greater than 99 percent of available funds (see Appendix B).

In 2002-03, the income eligibility cutoff was 55 percent of the state's median family income, or about \$35,000 for a family of four. The grant award amounts varied by sector. As a percentage of tuition, the grant awards ranged from 96.3 percent of tuition at the community colleges to 84.6 percent at the public research institutions.

		2002-2003		
	SNG Award	Average Sector <sub>*</sub>	Difference between SNG Award	SNG Award as a % of

CTC/Private Voc	\$1,908	\$1,982	\$74	96.3%
Private 4 Year	\$4,032	\$4,489	\$457	89.8%

<sup>\*</sup>The maximum grant for SNG recipients at private four-year colleges is limited to the value of tuition and fees at the public four-year research institutions. Therefore, the tuition recognized for private four-year colleges is the same as the public research universities.

The 2002-03 academic year saw a significant increase in the enrollment of low-income SNG eligible students. By the end of the 2002-03 year, schools reported that about 6,000 additional SNG eligible students had enrolled than could have been predicted at the beginning of the year. These students were eligible for the SNG, but did not receive awards due to a lack of funding.

#### **2003-04 Update**

For the 2003-04 academic year, the Board has \$114.2 million available for grants to students, including about \$2.6 million from federal matching funds. The Board staff expects that about 53,500 students will be served with the grant this year. Attached is a table showing each school's current SNG reserve for grants to students (see Appendix C).

The authorizing budget proviso indicated that the Board is to first serve students at the 55 percent income cutoff level. Grants were increased in response to the authorized tuition increases, however, for the second year in a row, the gap between the cost of tuition and the amount of the grant award also increased. For example, the gap for research university students went from \$691 to \$712.

<sup>\*</sup>The maximum grant for SNG recipients at private four-year colleges is limited to the value of tuition and fees at the public four-year research institutions. Therefore the tuition recognized for private four-year colleges is the same as the public research universities.

Schools are required to submit quarterly Interim Reports detailing their SNG expenditures and the eligibility of their enrolled students. Based on the early November report, it appears that the SNG program will again be 100 percent expended by the end of the 2003-04 academic year.

While the November report comes too early in the processing year to provide a definitive count of unserved students, it appears as though there will again be more SNG eligible students enrolling than there are funds to serve them. The next quarterly Interim Report is due from schools in February.
